<b><u>Chapter 410 - Road Impact Fee Ordinance And Designating Approved Projects</u></b>			
The following fees and charges are established for development and the following projects are designated as eligible for funding from the Highway Impact Fee Trust Fund:			
Fees	Peak Hour Trips		Cost of Trip
A. District 1	N	X	\$149.43

B. District 2	N	X	\$292.42
C. District 3	N	X	\$499.05
D. District 5	N	X	\$1,024.52

Where N = Estimated number of peak hour trips. Total trips generated during the p.m. peak hour for a development can typically be determined by trip rates presented in the 1987 Institute of Transportation Engineers (ITE) “Trip Generation” handbook, or estimated by field measurements collected at similar type developments. If, however, the ITE handbook does not have applicable rates, then the rates should be based on sufficient field data collected at a similar site. There are several types of development (i.e., fast food, shopping plazas, convenience stores, etc.) that simply redirect existing pass-by trips already on the existing roadway system; these trips should not be included in the assessment system. Only “new” trips to the system roadways should be assessed a development fee.

The total Impact Fee for a project shall be the sum of the fees for each district affected.

Projects eligible for funding from the Road Impact Fee Trust Funds are those projects depicted on the 100 scale aerial photographs titled “Long Range Transportation Improvement Program” (April 1989), prepared by Vanasse Hangen Brustling, Inc. as part of the 1988 Maine Mall/Jetport Area Traffic Study conducted for the Portland Area Comprehensive Transportation Study (PACTS) and the Maine Department of Transportation.
